IT IS SERIOUS

Some Norway People Fail to Realize the Seriousness of a Bad Back.

The constant aching of a bad back, the weariness, the tired feeling, the pains and aches of kidney ills may result seriously if neglected.

Dangerous urinary troubles often follow.

A Norway citizen shows you what to do.

M. M. Kilgore Danforth St., says: "I had backache and rheumatic pains for more than a year caused by disordered kidneys. My kidneys were acting irregularly all the time and I was so lame and sore across the small of my back I could hardly stand up. At night I rested but little and was feeling miserable much of the time. I finally got Doan's Kidney Pills at F. P. Stone's Drug Store and a few boxes cured me." (Statement given July 24, 1908.)

Permanent Results

On June 7, 1916 Mr. Kilgore said, "I gladly continue recommending Doan's Kidney Pills. The cure they gave me has proven permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Kilgore had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Conservation of Heat

How to Save One-Third of Your Fuel

Install in connection with your coal heater, a Jewell Heat Controller. This consists of two parts, a Thermostat with time clock attachment, which is placed on the wall of one of the rooms, and a Motor, which operates the valves or dampers of the heater and is placed at a convenient place in the cellar.

What It Will Do

You merely have to set the dial on the face of the Thermostat at the degree of temperature you wish to maintain in your rooms and the Controller keeps them heated within one degree of the mark set. With an even burning fire, much coal is saved and danger of overheating is avoided. The controller operates the dampers as well as could be done by a person staying all the time by the heater. As it will also open or close the dampers at any desired time, it makes it possible to have cool rooms at night and warm ones in the morning. It also enables you to keep a low temperature for several hours during the day if you are to be away and yet have warm rooms when you return. This means a large saving of coal and absolute protection against fire danger from overheating.

These Controllers are made in many styles and prices, from ten to fifty dollars. Sold and installed by

WAR TAX STAMPS ON PARCEL POST PACKAGES DEC. 1

The post office department has announced that the new war tax on parcel post packages will take effect Dec. 1, 1917. There will be a charge of one cent for each package transported within the borders of the United States, but no tax on packages upon which the packages bear less than 25 cents in postage. This additional charge is a war tax, while the additional rate for first class mail is an advance in postage rates. No parcel post packages will be forwarded after the date mentioned unless they bear the standard war tax stamp. The information relative to the mailing of parcel post issued by the department is as follows:

On and after December 1, 1917, every parcel or package transported from one point in the United States to another by parcel post on which the postage amounts to 25 cents or more, there shall be paid a tax of one cent for each 25 cents or fractional part thereof charged for such transportation, to be paid by the consignee. No such parcel or package shall be transported until a stamp or stamps representing the tax due shall have been affixed thereto.

The tax referred to is not applicable to parcels on which the postage amounts to less than 25 cents. On a parcel subject to 25 cents postage the tax is one cent; on parcels on which the postage amounts to from 26 to 50 cents the tax is two cents each and so on. Parcels will not be accepted for mailing unless both the required postage and tax are fully prepaid. Special internal revenue stamps shall be used to pay the tax; postage stamps are not valid for this purpose. The War Revenue Act makes no change in the postage rates applicable to such matter.

The internal revenue stamps affixed to parcels in payment of the tax must be canceled by the sender placing, or causing to be placed thereon, his written or stamped initials, together with the date upon which the stamps are attached or used. In no case, however, should the sender cancel postage stamps affixed to parcels; such stamps must be canceled only by postal employees.

Postage stamps will not be counted in payment of the tax, nor will revenue stamps, in payment of the tax, be counted in payment of postage.

Internal revenue stamps for use in paying such tax must be obtained at the postoffice.

FRYEBURG

The Cheese Factory

On the 20th of February, 1874, a cheese factory was organized at Fryeburg. Immediate steps were taken to begin operations. A building was erected and equipped and cheese-making begun early in the summer. The Argue Not Inn is the building, the original dimensions of which were 20 x 60. The company was capitalized at \$25,000. The shares of stock placed at \$25. Alden B. Walker was engaged as cheesemaker. The records show that it took 9 1/2 pounds of milk to make one pound of cheese, and that the cost of manufacturing was placed at 2 1/2c. This did not prove a very profitable venture. The factory was well equipped, but the milk didn't net enough to induce farmers to deliver it in sufficient quantities to make it a paying business. The factory was run but two years and the building and outfit were sold at considerable loss.

OXFORD ASSOCIATION UNIVERSALISTS

Rev. W. A. Kelley of Lewiston, at the session of the Oxford Association of Universalists recently held at Mechanic Falls, emphasized the need of intelligent work in the Sunday school, beginning with the cradle roll and eliminating in later years that type of instruction, which he best illustrated by quoting the remark of a boy who repeated what he had learned, or thought he had, in his Sunday school class.

"Moses was a very good oyster man and made ointment for the shine of his people."

Mr. Kelley, could his ideal of a Sunday school be realized, would begin with cradle roll and from there build up an organization so strong, that when they graduated they would graduate into full membership in the church.

The cry of need of the Sunday school today, says Mr. Kelley, is teachers, and the world doesn't hear the cry. The financial problem can be managed, but that of interested, conscientious and able teachers is harder to solve. He illustrated the need of preparing the boys and girls for their future life, by an incident he noted recently in Worcester. While inspecting a church in that city, he heard one day in a nearby building sound of such revelry, that he was moved to investigate. He found it to be the school of a boys' club of 4,000 members, and his sense of hearing led him at first to suppose that the whole 4,000 were occupying it at the time.

But the incident worthy of mention was this. The care of the building aside from the boiler is done by the boys. Moreover there is no such thing in the club as "supervised play." In their amusements they are left to themselves, and no part of the building is marred and none of the furniture is battered. In one of the rooms in which the furnishings have been in use for 14 years is a long scratch on one of the tables. That scratch was made by one of the city officials during a meeting held in the room, and the boys firmly refused after that to loan the room for any such purpose. The boys had profited by their training.

Mrs. Dwight A. Ball preceded Mr. Kelley's remarks with a fine talk on the various needs she cited, she urged the importance of teacher training work.

The evening program consisted of short addresses by Rev. Milo B. Blom of Gardiner, Rev. Grant Van Blarcom, Rev. Chester Gore Miller and Dr. George M. Twitchell.

The afternoon meeting opened with reports from the different parishes represented, all of which were favorable. The morning session was taken up mainly with routine work. During the woman's hour a detailed report was given of the standing of the association throughout the country.

The following officers were elected: Pres.—E. L. Phipps, Auburn.

Vice—Rev. F. H. Herrick, Leeds.

Sec.—Rev. G. W. Sias Waterford.

Treas.—C. A. Bonney, Turner Center.

BUSY, HARD-WORKED

MEN AND WOMEN

Will find that the sarsaparilla, pepsin, nux and iron treatment comprised in Hood's Sarsaparilla and Peptiron will give brain and nerve force, relieve the nervous strain incident to "too much to do in too little time," characteristic of life today.

These blood and nerve medicines seem to lift the nervous and over-worked into new life, enabling them to accomplish easily the things that have fretted them and have seemed to bring them to a standstill.

Hood's Sarsaparilla and Peptiron are very effectively supplemented by Hood's Pills, in cases where a laxative is needed. These three preparations are all sold by your druggist. Get them today.

ings by George Lorenzo Noyes is being

speaks a life study in the reproduction
of the varied subjects. The scenes are
laid largely in Oxford County. Among
the pictures shown are "The Flight of
the Fog," "The Upland," "The Senti-
ment," "The Mountain Woods," "The
Valley," "The Summit," "The Forest
Giant," "Wind Swept," "Pine Swamp,"
"Misty Morning," "Cloudlands," "The
Oasis," "Wind Tortured," "The Pool
in the Valley," "The Gathering Storm,"
"The Cloud Wraith," "The Quick and
the Dead," "The Conquering Cloud,"
"Beyond the River," "The Bridges,"
"The Pine Forest," "Sunset," "The
Bleak Day," "Nature's Cathedral,"
"The Foot-hills," "The Wrath of the
Elements," "The Dying Light," "The
Halo," "The Cloud Spirit," "The Lone-
ly Valley," "Desolation," "The Lone-
ly Day," "The Range," "The Rain,"
"The Great Tree," "Playful Clouds," "The
Dark Day," "The Gnarled Tree," "The
Farther Reach," "The Silhouette,"
"The Black Cloud," "The Victim,"
"King and Queen," "Land and Sky,"
"Softening Light," "Sedgy Brink,"
"No Man's Land," "The Quiet Water,"
"Lowering Mists," "Twin Hills."

George Lorenzo Noyes was born in the
village of Norway, in the State of Maine
some fifty years ago. An account of his
inspiration is given in his own words:
"In regard to the drawings, I have
never put into words 'the why' of them
I remember from the very first of being
conscious of myself and my surroundings
and of desiring to make pictures. Liv-
ing as I did, in the country where the
great beauty exist, I of course, turned
to them. All my boy days were lived in
the surroundings where nature seemed to
be in full expression. The intended
things, as they seemed to me, I had the
freedom of life in the mountains. I had
conquered all the valleys and explored the
mountains, hunted and fished, camped out,
and had all the privileges a boy could
wish for. All that seemed to give me
life what I craved. As I grew older
the things seemed to grow more profound
and more beautiful, and the desire to ex-
press myself, my feelings, grew also.

"I used the pencil to pry into the
things, to see how they were made,
to know the anatomy. I drew the little
things, the roots of trees where they were
exposed on the banks along the streams
and over ledges, in fact I tried every-
thing. Where mountains are, there exist
clouds that belong to the mountains. The
whole environment seems to me the most
beautiful possible upon this earth. I
studied the parts, the things that went in
to make the whole. The earth as one,
the sky and clouds as another. These
combined to make one, the expression of
a complete wholeness. I traveled these
mountains for many years in all the sea-
sons and recorded facts. I let them tell
me the something I wanted."

"The artist who works in black and
white must know his medium so well and
realize his subject as so inherent in his
art that his pencil will express without
hesitation his fullest understanding of
life. For the man truly interested in
what he can give us with black and white
will recognize no limitations in what he
has to say. There is no limitation to
the power he has to touch your memory,
to open up your imagination. The pen-
cil portrays in its intruys the sense of
space; it portrays in its intruys the sense
of motion, and it indicates in the
lights and shadows of its surface the very
subtlety of color which it seemingly dis-
regards.

"What we get from art in every in-
stance is what we know of life. I had
no training, only as I learned from the
things I loved. I wanted my works to be
mine first-hand. I have never in my
life seen a master-painting, no profes-
sional works, and that perhaps may be
against me, but I am going to risk it.
anyway. I have lived my life environed
by the scenes I admire!"

Too Many Operations

The Right Medicine in Many Cases
Does Better than the Surgeon's
Knife. Tribute to Lydia E. Pink-
ham's Vegetable Compound.

Doctor Said Operation or Death—But Medicine Cured.

Des Moines, Iowa.—"My husband says I would
have been in my grave today had it not been for
Lydia E. Pinkham's Vegetable Compound. I suf-
fered from a serious female trouble and the doctors
said I could not live one year without an operation.
My husband objected to the operation and had me
try Lydia E. Pinkham's Vegetable Compound. I
soon commenced to get better and am now well
and able to do my own housework. I can recom-
mend Lydia E. Pinkham's Vegetable Compound to
any woman as a wonderful health restorer."—Mrs.
BLANCHE JEFFERSON, 703 Lyon St., Des Moines, Iowa.

Another Operation Avoided.

Richmond, Ind.—"For two years I was so sick and weak from
female troubles that when going up stairs I had to go very slowly
with my hands on the steps, then sit down at the top to rest. The
doctor said he thought I should have an operation, and my friends
thought I would not live to move into our new house. My daughter
asked me to try Lydia E. Pinkham's Vegetable Compound as she had
taken it with good results. I did so, my weakness disappeared, I
gained in strength, moved into our new home, do all kinds of garden
work, and raised hundreds of chickens and ducks. I cannot say
enough in praise of Lydia E. Pinkham's Vegetable Compound."—Mrs.
M. O. JOHNSON, Route D, Box 190, Richmond, Ind.

Of course there are many serious cases that only a
surgical operation will relieve. We freely acknowledge
this, but the above letters, and many others like them,
amply prove that many operations are recommended when
medicine in many cases is all that is needed.

If you want special advice write to Lydia E. Pinkham Medi-
cine Co. (confidential) Lynn, Mass. Your letter will be opened,
read and answered by a woman and held in strict confidence.

Debating League

The Bates Interscholastic Debating
League is to hold the usual debates this
year in spite of the extraordinary con-
ditions in the scholastic society. This
will be the fifth year of the League's ex-
istence.

The league consists of nine high and
preparatory schools, grouped in a triple
triangle. The tentative grouping for
this year is as follows: Group A. Bangor
High, Grammar High, Maine Central In-
stitute. B. Leavitt, Jordan High, Deer-
ing High. C. Rumford High, Norway
High, the winner in each group will de-
termine in the finals for the cup offered by
the Bates Chapter of the Delta Sigma
Rho.

The question for debate has not yet
been chosen, but the tentative list, from
which the final choice will be made, con-
tains propositions relating to national
prohibition, the war, the establish-
ment of an international police force, and
other equally timely subjects.

During the four years since the estab-
lishment of the Bates League, Rumford
High has carried off the lion's share of
the honors, winning the championship
for the first three years, and taking third
year, M. C. I. broke into this wonderful
record and won the championship of the
league.

AGITATION FOR A PLAIN THANKSGIVING

Included in the campaign of economy in the United States is agitation to impress upon people the fact that good sense, good taste and consistency call for a plain and simple Thanksgiving this year.

If one-half the usual outlay for Thanksgiving feasts is saved this season by cutting the banquet down to a plain but ample meal, it would make a saving of many millions of dollars throughout the country and the sum thus saved could far more wisely and sensibly be devoted to the demands of the war.

When strenuous efforts are being made to secure pledges from householders to observe meatless and wheatless days, and these pledges are being signed by nearly all, as they should be, it is not becoming any household to make a lavish outlay upon Thanksgiving Day, and we think the general sentiment is not to do so.

WEST PARIS

At the special meeting of the West Paris Library Association, Clarence L. Ridlon was elected to fill the office of treasurer for the remainder of the year in place of Rev. D. A. Ball, who has moved away.

Sale and Entertainment
The sale and entertainment held Friday afternoon and evening was a great success. The aprons, fancy work and food all sold readily and the entertainment in the evening was such a musical treat as has not been the privilege of our people to enjoy in West Paris for some time.

The talent consisted of orchestral and vocal music of the best quality. This part of the program was given over to the management of Mrs. Stella Willis Burnham, a former resident here, now of South Paris, and the secured Grace Dean, violinist, and Allie Cote, cornetist, of South Paris, also Esther Tyler of Bethel a piano pupil of Mrs. Burnham's. Miss Tyler is a young lady of only fourteen years, but is an exceptionally fine pianist, also cornetist, for one of her years. Mrs. Burnham also brought with her from South Paris the Schubert quartette of which she is a member, the other three are Mrs. Virgie Wilson, Mrs. Edith Wheeler and Mrs. Luella Smiley. We failed to get the titles of the selections used, but with the above talent one may imagine a wide variety of music.

The instrumental music consisted of piano, violin and cornet solos and orchestral. Miss Tyler also gave piano and cornet solos and accompanied one or two of the Schubert quartet selections, all of which were very generous in quantity (all were encores), and much credit is due them for their spirit of helpfulness in that their services were given to help the little church, of which Mrs. Burnham was once a member.

A reading "Tommie's Prayer," by Mabel Ricker and "Deacon Slocum and the Oxen," by Earle Bane were also given with credit during the program and a farce entitled "A Pair of Burglers" closed the program. The characters in the farce were Mr. and Mrs. Ellsworth D. Curtis, Bernard Chesley and his sister Belva, which were very well taken and amusingly entertaining. There was a good house of appreciative listeners and music lovers and the whole affair netted a goodly sum to the Ladies' Aid.

The pupils of the Woodstock High school gave a Halloween party at the school rooms on the evening of Nov. 2nd.
